IEMI 2023 Exhibition Floor Plans

August 1 2023, Chennai

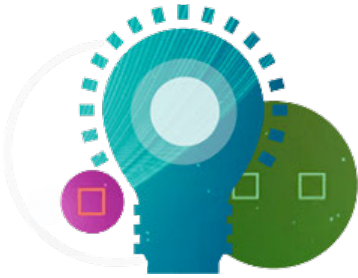

August 3 2023, Pune

Why Sponsor IEMI 2023?

IPC has developed annual international networking forum in India Region- Integrated Electronics Manufacturing & Interconnections (IEMI). The two-day, two-city event will bring together designers, manufacturers, traders, suppliers, service providers and technical experts to explore new business partnerships, gain technical knowledge and source products & services

Learn

- Latest electronics manufacturing industry standards
- Presentations featuring new technologies & best practices
- Prominent speakers from the industry
- IPC Skill Challenge Program – Hand Soldering/Wire Harness/PCB Design

Network

- Connect with regional & global customers/end users
- Meet potential suppliers
- New product introduction
- Lead generation and partnership opportunities through B2B

About us

IPC, The Global not for profit Association established in 1957 at USA represents all facets of the electronics manufacturing industry in 70+ countries. IPC help organizations to achieve high-quality end product in the manufacturing process and builds capability in export market & supply chain. IPC organizes various expos world-wide, and annual flagship event APEX expo is organized in USA.

Since 2010, IPC has regional presence in India and supports OEMs, EMS, PCB manufacturers, electronics industry suppliers and cable & wiring harness manufacturers to Build Electronics Better. Member representations are from SMEs, large, Global & Government organizations. IPC provides industry standards, certification, skill training, global market report and create networking platform for connecting regional & global companies.
