

# QDOS

QDOS is a Malaysian Company having 30 years' experience on manufacturing high technology Flexible PCBs (FPC) and IC substrates (using SAP process & ABF materials) for global customers. We have multiple factories certified to highest quality standards (IATF & ISO certified), each having unique capabilities and experienced leadership team. We have a full-service model for providing the customers a complete solution from concept design, interconnect/ substrate manufacturing until customised assembly of the interconnect.
